SIDE - ROLL GRAIN TARP SYSTEMS

LOAD-LOC

FOR ALL TYPES OF GRAIN BODIES

“The Truck Tarp Specialists”

Standard Specifications

- Custom manufactured to fit specific width and length

Tension Control

- Tension control is hidden from the elements inside the roll tube.
- Uses a non-stretch rope attached to a spring to endure the harsh winter

- Centre stiffener rod is sewn into the tarp for added support

Cross Members/ Hoops

- Formed 1" galvanized tube
- Removable to accommodate water tanks, bales, etc
- Comes with standard bolt on tarp stops.
- Optional Flip Release Tarp Stops available in 3" or 6" offset

Tarp Material

- 19 oz. P.V.C.
- re-enforced edges
- Heat Welded seams
- Extra wide fabric to allow for heaped loads
- Available in 16 colours

End Caps

- .081 (14G) Aluminum
- Rear end-cap is designed to allow full operation of the tailgate with end-cap in place
- Rear end-cap is removable

Locking System

- Swivel crank handle allows for easy rolling of the tarp system.
- Snap in style crank handle holders are used to hold crank in locked position
