

Replacement Tarp Order Form

1) How does the tarp (at the front of the tarp) attach to the Trailer? Tarp attached to a "sq. tubing" and bolted to trailer or First Hoop attached to Aluminum "Wind Deflector"

2) What is the center to center of the cable pulleys on the Front shaft? If not a Michel's System the width of the tarp maybe required.

3) What is the rise of the hoops? (Standard is 12" or 18"). With an 18" Rise the first hoop will have a 12" rise.

4) How long is the tarp material? Measure from the front of the tarp material to where the tarp ends?
NOTE: A Wind Deflector style has no adjustment and cannot be too long or the tarp will ride up on the rear pulleys and not Keep the tarp tight. Sq. Tubing style has a few inches of adjustment.

5) Does the tarp system have a rear double hoop? (Yes or No)

6) Type of Material: 20oz Vinyl, 22oz Vinyl (Factory Standard for Vinyl) Mesh or Neoprene?

7) Color of material NOTE: Neoprene is only available in black and not all colors are available in 22oz or Mesh material.
